

## **Fusion™ Asset Management Software Reaches Management Milestone, Supports Largest LIHTC Portfolio in Housing Industry**

Boston, MA, February 24, 2010 – Boston Capital’s subsidiary, Lexington Solutions, recently licensed its state-of-the-art, asset management system Fusion™ to one of the leading asset management firms in the country, making Fusion™ the most utilized LIHTC portfolio management system in the housing industry. Fusion™, a comprehensive and sophisticated asset management tool, currently administers more than 200,000 LIHTC units and manages the tax credit portfolios of more than 100 investors.

“Fusion™ has revolutionized the way we analyze our portfolio, create and run reports and share information,” said Jeff Goldstein, Chief Operating Officer at Boston Capital. “This contract further validates Fusion’s™ ability to provide significant value to LIHTC industry syndicators, asset managers and investors who demand timely data analysis and reporting.”

### **About Lexington Solutions:**

[Lexington Solutions™](#), a subsidiary of [Boston Capital](#), provides state-of-the-art asset management and fund management software to the tax credit industry. Lexington Solutions™ is owned by Boston Capital and its leadership team is comprised of veteran Boston Capital employees who understand the unique challenges of the LIHTC industry. Lexington Solutions™ focuses exclusively on making Fusion™ available to investors, syndicators and asset managers in the affordable housing tax credit business.
