

Housing Advisory Group

The Housing Advisory Group (HAG), along with the Affordable Housing Tax Credit Coalition, Enterprise Community Partners, LISC, and the National Association of State and Local Equity Funds, is urging lawmakers to include provisions in the Senate version of the economic stimulus package that would lead to new investment in the LIHTC program and subsequently increase the production of affordable housing.

The \$835 billion House version of the legislation which was released yesterday included no proposals to stimulate either LIHTC production or investment and so we urge our members to contact their senators and ask them to support the [provisions](#) being proposed by the industry. We expect action on the senate version of the stimulus package soon so please do not delay in making your calls encouraging your lawmakers support for affordable housing.
